Websites, Portfolios, Profiles

- https://zeeshanjunaidportfolio.vercel.app/

Skills

- *Frontend:* HTML, CSS, JavaScript, React, AngularJS, Bootstrap, Tailwind CSS

- *Backend:* Firebase, MongoDB, APIs

- *Mobile Development:* React Native

- *Version Control:* Git, GitHub

- KEY ACHIEVEMENT
- Successfully developed a marketplace app in collaboration with a team of 4 developers, integrating Firebase for real-time data management
- Built responsive and dynamic user interfaces using React and Vue.js, enhancing website performance and reducing load time by 25%.
- Implemented React Native to create a cross-platform mobile app, increasing accessibility for both iOS and Android users.
- Increased user engagement by adding intuitive UI/UX features with Tailwind CSS, resulting in a 30% improvement in user interaction and feedback.
- Utilized Git and GitHub for version control, ensuring smooth collaboration and error-free releases during team projects.

Accomplishments

- Expanded customer base through successful digital strategies.
- Followed market trends and updated to create new and unique web apps.
- Delivered projects on time and exceeded performance expectations.

Projects

- **SportHub** (sporthubs.netlify.app) - 2024: A team project involving 4 developers where users can sell or buy sports items through Firebase-integrated ads.
- **Blood Bank App** - 2024: Designed and developed a mobile app using React Native and Firebase, enabling users to find blood donors based on location and blood type.
- **Food Delivery App** - 2024: Contributed to an open-source GitHub project for a food delivery app, focusing on UI improvements and real-time updates using Firebase.

Training

- Fullstack Development
- AI (Artificial Intelligence)
